THE MAILS .- By an order received from Post Office department to Hon. T. C. Perrin, we are advised that service has been ordered on the G. & C. Railroad, and that the mails will be carried daily from Alston to Greenville, and all intermediate points on said road.

#### South Carolina Rail Road. As a matter of public interest, we publish the accompaning letter, which states the condition of

the S. C. R. R., on authority: GENERAL SUPERINT'D'TS OFFICE, S. C. Railroad, Sept. 20th, 1865.

Messrs. Courtenay & Trenholm, Newberry, S. C.,

GENTLEMEN-Yours of 14th inst., making inquiry of the probable time the road would be finished to Columbia, was duly received this day ? in answer would say, that at the present rate of building, the road may be finished to Columbia, about 15th Nov.

We expect to be running to Hopkins' by the latter part of the first week in Oct. This is 12 miles below Columbia.

Very Respectfully, Your Obt. Svt. H. T. PEAKE, Genl. Supt.

The Convention. The irregular flight of the Phanix 'bird,' owing to the disordered condition of the mails, leave us unfortunately without complete proceedings of this body; we are unable consequently to give our readers a full detail of what has been done or proposed. From what we gather, however, the following synopsis embraces the pith of all that is important, so far as heard from

The Ordinance of Secession has been repealed. In regard to slavery the following has been apdopted by a vote of yeas 98, nays 8:

to this time:

"The slaves in South Carolina having been de facto emancipated by the action of the Government of the United States, neither slavery nor involuntary servitude, except as a punishment for crime, whereof the party shall have been duly convicted, shall ever be re-established in this

Resolutions have been offered to make valid all contracts made and performed during the existence of the Confederacy.

Resolutions to the following effect have been offered and referred : That South Carolina will restore her political relations with the Government. That the Constitution shall be so altered as to require the election of Governor to be made by the people. That he shall be re-eligible, and that he shall be invested with a qualified veto upon the legislation of the General Assembly. That the election of Electors of President and Vice President be made by the people, and that seat of Government; that the office of Comptroller-General be abolished; and that the offices of Secretary of State and Surveyor-General shall also be held at the seat of Government. That the sittings of the Courts of Appeal and for the Correction of Errors be held only at the seat of-Government. That the basis of representation in population of the State; the number of members one hundred. In the Senate to be based equally upon white population and taxation, provided, each judicial district be entitled to at least one Senator; number of senators to be fixed at forty. That the Lieutenant-governor shall be exofficio president of the Senate. That all elec-tions by the Legislature shall be made viva voce, and the name of the member and the person

voted for be recorded. That the committee on the Judiciary Department be instructed to inquine and report on the propriety of establishing in the Constitution the following provisions.

1s. One Supreme Court, with appellate jurisdiction throughout the State the Judges thereof to be selected by the Governor, subject to the approval of a majority of the Senate.

2. A Superior court, the Judges thereof to be selected and approved in like manner as the Judges of the Supreme Court, the duties of said Judges, among others, to consist in administering the usual duties in each Judical District

twice in every year. 3. A District or Judical court to consist of one of the District; the duties of said court extend- tive public. We cordially recommend these genmean causes, and also all causes, lately within the jurisdiction of the court of magistrates and Freeholders, not, however precluding the office of magistrate. Said committee will also inquire and report on the propriety of giving said court all jurisdiction now exercised by the Ordinary of

... Mr William Wallace introduced the following resolution : Whereas by the fortunes of war, our former noble and beloved chief magistrate, Jefferson Davis, is now languishing in prison, awaiting his trial for treasen; and whereas, the fanatics of the North, not satisfied with the wide-spread ruin and desolation which they have caused, are

shricking for his blood; Resolved, That it is the paramount duty of South Carolina, who led the way in our late struggle for independence, and for which stuggles he is now suffering, to use every lawful means in ber power to atert the doom which threatens him

Resolved. That to this end, a deputation of members of this body be sent to the city of transport passengers and freight to any part of the shington, in behalf of the people of South the town. The line is entirely reliable both for Carolina, to ask of his Excellency, the President of the United States, to extend to the Hon. Jefferson Davis that clemency which he has shownus, who are equally the sharers of his guilt, if guilt there be, and which is accomplishing so much towards restoring the peace and harmony of the Union.

Mr. Connor offered the following as an amendment ; which was accepted by Mr. William Wal-

Resolved, That it be referred to a committee of Three, to draft memorials to be addressed, by this convention, to His Excellency, the President of the United States, requesting Executive clemency for Jefferson Davis, the late President, and A. H. Stephens, the late Vice-President of the Confederate States : A. G. Magrath and Geo. A. Trenholm, citizens-of this State.

Whereupon, the President appointed the following members of the committee : Messrs. Connor, William Wallace and Mr. Rose. Mr. F. W. Pickens introduced the following resolution; which was referred to the committee

on Ordinances and Resolutions. Resolved, That it be referred to the committee on Ordinances and Resolutions, to inquire and report on the propriety of sending a competent agent to Washington, to ascertain from the Fresident what is the condition of the lands called "Abandoned Lands" in this State, and how long it will be before the owners of such lands will be restored to the possession of their property.

It is presumable that the Parish System will be abolished. And that the election of electors of President as well as that of Governor will be given to the people, while the powers of the Governor and Lieut. Governor will be extended so as to include the appointment of Sheriffs, Commissioners, Ordinaries, Clerks, &c.; all offi-

cers responsible to the Legislature. A resolution has been passed giving to the members of Congress five dollars per day for their attendance and 20 cents milage, going and &c., must be presented at the office of the A. A. that his prices will give entire satisfaction.

Governor Perry's Proclamation of the 18th inst, invites the organization of one or more volunteer companies in each judicial District, for "a home police, to act under and anxiliary to the military garrison of such district in preventing crimes and preserving the peace of the district." The writer refers to the Proclamation, which is published in this issue, for further details as to the manner of the organization of these companies, their duties, &c. His only object is the public good, and he most respectfully urges upon the community prompt action in this matter. The United States forces in our midst are now being reduced to small garrisons in each District. Every intelligent citizen acquainted with the circumstances of our situation will at once appreciate the importance of having at hand an organized force of effective and discreet men, to supparts of the paper, and if you want accommodapress any disorder that may arise. The only military force that is now in our midst is a small detachment of the 25th Ohio Regiment, numbering 20 men, under the command of a Lieutenant. We should have a force to act in concert with him. From what we know of that Regiment, its prestige is good, and by sustaining the officer here in his efforts to enforce law and Oring offenders to justice, good order and peace will be secured: Unless he should be properly sustained in the discharge of his duties, much trouble may arise. There should be no hesitancy in this matter on account of the character of the service, or from any notions of pride. The safety and good order of society imperativedemands that it should be known and felt, that there is military power in our midst sufficient to suppress the very first show of resistance to authority, or the first attempt at lawlessness and

disorder. To the intelligent citizen it is unnecessary to use language plainer than this. I would suggest that on Monday next, there should be a combined effort of the citizens to ac-complish the object in view. It is conceded that during the next few months, we shall be exposed to the greatest trials growing out of the present condition of things. Let us make every prepa ration to meet every emergency that may arise. This preparation is advised by the Provisional Governor, at the suggestion of the commanding general of this part of the State." If we do not heed the warning the fault will be our own. This s only a temporary expedient. When the State has been reorganized and the U. S. forces withdrawn; then the laws of the State will provide for a general militia organization which will be amply sufficient for all purposes. .

EXECUTIVE DEPARTMENT S. C.

SEPTEMBER 4, 1865. WHEREAS it is represented that in many portions of the St te, there is great disturbance and apprehension from lawless persons, who are thieving, marauding and committing acts of violence remote from the military garrisons stationed at the Court Honses; and whereas Brigadier-General Ames, commanding the Northwestern partion of the State, has suggested the organization of a militia police force in each District of his command, to act in concert with his forces in preserving order and peace in the com-munity; and whereas it is supposed that the other military commanders will, have no objec-tions to the aid and assistance on the part of the citizens in suppressing crime and maintaining order ; and whereas, also, it appears that President Johnson has sanctioned and authorized the Provisi nal Governor of Mississippi to organize a similar force in that State, and has forbidden the military authorities there to interfere with such

New, therefore, I, BENJAMIN FRANKLIN PERRY, Provisional Governor of the State of South Carolina, do proclaim, order and declare, that there shall be formed and organized in each Indicial District one or more militia companies for a home police, to act under and be anxiliary to the military garrison of such District in pro-District. The companies will consist of a Cantain and three Lieutenapts and eighty men, scat-tered over the District so as to be easily necessible from all points where any disturbance may occur. When the companies are formed, they will report, through their Captains, so the respective Brigadier-Generals commanding in South Carolina, and to the Provost Marshals at the res. pective Court Houses, and from them receiv their orders. When arrests have been made, ther will turn the offenders over to the civil suthorities or bring them before the Provost Court Marshal for trial and punishment, according to the terms of agreement between Generals Meade and Gillmore and myself as to the respective jurisdictions of the civil and military authorities in South Carolina.

This police guard will be voluntary in its or-

ganization, and should be composed of none but discreet persons of standing and character in the community, who are willing to render their services promptly when the occasion requires. It is thought that the bare organization of such forces throughout the State, will have a most sale. tary influence in preserving peace and order and in preventing crime. The evil doers will know that there is a power, ready at hand, to arrest them and bring them to justice. It is to be hoped that all good cifizens will chreefully render this service. It should be a post of horor, as it is, to

guard and protect the country. Done at Columbia, the div and year above stated. -By order of the Provisional Governor, W. H. TERRY, Private Secretary.
